

PAINt STIRREr AND NEwSPAPER

- (1) Place paint stirrer on table
- $\frac{3}{4}$ on table, $\frac{1}{4}$ off table
- (2) Open 2 sheets of newspaper. Spread out newspaper so that there is about 6 in of overlap in the middle. (Overlap is on top of the paint stirrer)
- (3) Place a 3rd sheet of newspaper on top.
- (4) Smooth out the newspaper
- (5) Using the side of your hand, chop down and hit the paint stirrer. Hit the paint stirrer near the table.
